**2011 DESJARDINS INTERNATIONAL COMMERCE AWARD WINNER**

Montreal, October 13, 2011 - The 2011 Desjardins Entrepreneur Awards' Gala was held at the Chateau Frontenac in Quebec City yesterday. AV&R Vision & Robotics, finalist in the [International Commerce](#) category, was surprised and honoured to win the prestigious trophy.

This prize, presented by Export Development Canada (EDC), rewards a company brilliantly showing the real positive impacts of extending business development efforts to the international market and forming partnerships with companies with attractive development potential outside of Canada.

AV&R was facing Groupe Genacol and Averno who, according to the jury, also had excellent records.

Thank you Desjardins for this award and congratulations to the entire team for planning this tremendous gala.
